DETAILED ACTION

Information Disclosure Statement

1. The Examiner has considered the information disclosure statement filed on 4/12/04.

Claim Objections

2. Claims 1-18 is objected to because of the following informalities: The claims should be set forth limitations without the use of characters in parenthesis. Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites "projection optics for receiving at least a portion of the secondary light beam bundle and converting the secondary light beam bundle into at least one of a tertiary light beam bundle and a marking beam bundle for at least one light mark and radiating and projecting the at least one light mark". The claim language states in the beginning language that the projection optics receives a portion of the secondary bundle or the secondary bundle and then later states it receives the secondary bundle. In lines, 9-11 of claim 1, language also indicates the projection optics receives a portion or the

secondary bundle and then proceeds to state the projection optics receives the secondary bundle. The Examiner is unclear as to applicants intended meaning and thus the claim is indefinite.

Claim 1 recites the limitation "the cylindrical lens" in line 16. There is insufficient antecedent basis for this limitation in the claim.

Claims 2-18 inherit their indefiniteness from claim 1 from which they depend.

Allowable Subject Matter

5. Claims 1-18 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
